Ms. Vasudha Ahuja,
The Hiring Manager, Google India,
Google RMZ Infinity
Bangalore, Karnataka

Dear Madam,

Subject: Application for Full-time SDE-1 Role

I am writing to you in response to the job listing posted on your careers website. After reviewing your description it is clear that you are looking for a candidate who can perform the task confidently and properly handle the responsibilities associated with it. Given these requirements, I am certain that I have the necessary skills to do the job adeptly and perform above expectations.

I am a Computer Engineering student from Sardar Patel Institute of Technology with 9.2 C.G.P.A. I have strong understanding on data structures and algorithms and actively participate in coding competitions and Hackathons. I have led a team of 5 members and have won the Fire Safety App Development Competition in my university. One of my major achievements include ranking 12th(out of 230) in a online data science hackathon which lasted for more than 24 hours.

I am a focused developer who has been consistently praised as result-oriented by my co-workers and management. Over the course of my 2-month internship at Proditech Solutions, I have developed a skill set directly relevant to the Software Engineering role you are hiring for. Overall, I have consistently demonstrated management, problem-solving, and teamwork abilities which I would bring to this role at Google.

Google has improved the lives of many people with the help of technology which also inspired me to pursue software engineering as my career. After reviewing my resume, I hope you will agree that I am the competent candidate that you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization.

Thank you for your consideration, and I look forward to hearing from you soon.

Yours Sincerely,
Jiten Sidhpura

Enclosed: Copy of resume.
